Equipment build: 7mm suit + vest w/hood; one light;
131lbs weight; camera with no strobe, spare air

Rather than wait until 1000 for the underwater easter egg hunt, me and PSD hit the water early. We did a beach entry, kicked out and headed left. Vis was 5-10 feet depending on depth, clearing the more we got down the coast. We found several of the eggs, saw some horn sharks and a few bugs. After 45 min or so we got out over the rocks then spent the rest of the day debriefing with Dive N Surf. Dan and The Brit had great food on the grill and fun was had by all.
