Comments

Equipment build: 7mm suit + vest w/hood; one light; 141lbs weight;

Second checkout dive after deployment to get some depth. Still used the Kirby reg since the o-ring in the tri-metal had failed again. Swell was moderate and exit expecially required timing. Surge was noticeable even down at 35ft. Not much to see not even sheep crabs or horn sharks. Saw a few small flatties and crabs but that's about it.
