Good dive today. Water was flat with easy entry/exit. Vis a bit less than expected (6-12ft) given how flat the water was. A small thermocline at 35ft and a bit more surge on the bottom than expected. Saw a small reef shrimp and octo along with lots of fish. One of the traps had 3 bugs. About the time I reached my turn around air limit, I reached the large pinnacle which is just cool to hang around. Also fed Abby on the way in.
