Equipment build: 7mm suit + vest w/hood; one light; 131lbs weight; camera with strobe, spare air

Another good dive at 120 Deg reef. First dive with the Spare Air. Water was dead calm. Vis in the cove was good though the reef was only 6-8 feet. Today was a rockfish day. They were all over. Saw a three legged starfitsh. Guess he had a bad day. Also saw an octopus snoozing in a pipe. Saw a really big yellow nudibranch and a really small purple one.
