Equipment build: 7mm suit + vest w/hood; one light; 19 lbs weight, camera and strobe

Decided to zip back to the island after sitting out the bad weather yesterday. Vis a littlle less at 25-30 ft but still a nice dive. Went a little deeper today and explored a very large pinnacle to the east in 35ft. Not too many critters out today but did get to hand out witn a friendly male sheephead. Also found the Cousteau monument.
